S2.14.2a: Distinction Management_View mode

S2.14.2b: Distinction Management_Edit mode

Component	Type	Description
-----------	------	-------------

	Screen Title	Text	Display Rules: Refer design Display distinction name that admin set, for e.g “Philanthropist” as page title. BR 02 Display button back Behavior Rules: Static text, reflects current distinction entity. Click button back, go to Distinction list screen. Refer UC-14.1: View Distinction List
	Edit	Button	Display Rules: Display “Edit” button in view mode. Enabled by default. Behavior Rules: On click, switch screen from View mode to Edit mode.
	Cancel	Button	Display Rules: Display “Cancel” button in edit mode. Enabled by default. Behavior Rules: On click, discard all unsaved changes and switch back to View mode.
	Save	Button	Display Rules: Display “Save” button in edit mode. Disabled until all required fields are valid & there's at least one change. Behavior Rules: On click, save updated distinction configuration and switch to View mode + show MSG 05. Validation Rules: Disabled if required fields are missing or invalid.
	Distinction Name	Text Input	Display Rules: View mode: display distinction name as read-only text. Edit mode: editable input with placeholder as pre-filled value of distinction name. Behavior Rules: Allow admin to update distinction name in edit mode. Validation Rules: Required field. CMR 25 Maximum 255 characters. BR 02
	Type	Text	Display Rules: View mode + edit mode: display type as read-only text. Behavior Rules: Statistic text

Description	Text Area	Display Rules: View mode: display full description as read-only text. Edit mode: editable text area with placeholder as prefilled value of Distinction description BR 02. Behavior Rules: Allow admin to edit description content. Validation Rules: Required field. CMR 25 Maximum 1000 characters. BR 02
Pricing Tier	Section	Display Rules: Display section title "Pricing Tier". Display pricing rows grouped by company class. BR 01 Behavior Rules: Static container for pricing configuration.
Pricing Tier Row	Row Container	Display Rules: Display paired Price (CHF) and Company Class per row. Behavior Rules: In edit mode, each row allows price editing independently.
Price (CHF) Field	Numeric Input	Display Rules: View mode: display price in CHF as read-only value. Edit mode: editable numeric input for each company class. Behavior Rules: Allow admin to update price per company class. Validation Rules: Required field. CMR 25 Accept numbers only. Must follow monetary input rules (max 2 decimal places). CMR 06 If input number exceeds max price = 999999999999, show MSG 09
Company Class Label	Text	Display Rules: Display company class description (e.g. Class 1: 1'000 – 29'999 employees, Public Figure, Individual). Behavior Rules: Static text mapped to pricing tier. CMR 01
NFT Artwork	Section	Display Rules: Display section title "NFT Artwork". Display uploaded NFT artwork image preview Display as default if there's no artwork uploaded: Refer Branding material Behavior Rules: Container for NFT image.

	NFT Artwork Upload	Upload Field	Display Rules: Edit mode: display upload area with text "Click to upload or drag and drop (PNG, JPG or SVG max 5MB)". Behavior Rules: On click or drag & drop, open file selector and upload image. Validation Rules: Accept PNG, JPG only. Max file size 5MB. Single file upload. Required field. CMR 25
	Distinction Features Section	Info Box	Display Rules: Display informational box listing NFT features (non-sellable, transferable rules, points distribution, anti-resell validation). Display title as "Distinction Features" Content as: " • Non-sellable, transferable 1x to non-custodial wallet • Both buyer and recipient receive NFT • 10% points bonus distributed to both parties • Anti-return validation prevents reciprocal exchanges in same year" Behavior Rules: Static informational content.
