	Edit	Button	Display Rule - Default: Enable Behavior Rule - On click Open account details in edit mode. Refer UC4.2: Edit profile																																								

Your Badge	Section	Display Rule: Refer design Display title as "Your Badge" - The badge is generated when users (both buyer & recipient) purchase distinction/receive NFT for the 1st time. ■ All users (company/public figures, individual) can receive badge + For e.g. After purchasing a company, the badge is automatically assigned to company A and also to company B: same NFT distinction & points that both parties receive when purchase distinction successfully - The badge is linked to a specific company from the first time it purchases or receives an award. Only one badge per company /user profile. - Badges are solely linked to the purchase of awards (e.g., A purchases the Philanthropist Award and gives it to B; A receives a badge, and B receives a badge. A purchases the Investor Award and gives it to C; A does not receive a new badge, but C receives a badge). ■ In the case when user A buy distinction for user B and user B got ban => Badge lost ■ However, if user B got ban after user A buy distinction for user C => Badge remains (as C is now the first purchase for A) ■ If B account unban ■ A only keep badge with C in this case ■ B keep the first available as badge
Embed Code	Code area	Display Rule: Refer design Display "Embed Code": Embed code of the badge Refer Design Display "Copy Code" button. Default: Enable Behavior Rule • On click copy to device's clipboard so that company can attach on company's website • The purpose of the badge is for companies to be able to display it on their website or social media. • Link to the company profile with related NFTs in the public directory Homepage
Copy link	Link	Display "Copy Link" Display copy icon button Refer Design Behavior Rule • On click copy to device's clipboard so that user can post on social media • Link to the company profile with related NFTs in the public directory Homepage
Badge	Image	Display image of the badge Default badge image Display "Download Logo" button. Default: Enable Behavior Rule • On click download file PNG to device's storage
